

THE MAIL

THURSDAY, MARCH 5th, 1906.

NUTS FOR MR. DALY.

There are a few things in connection with this separate school question the public ought to make Mr. Daly explain if he comes back for reelection. The first is how he construes the finding of the Privy Council, as follows, in its absolute command:

It is certainly not essential that the statutes repealed by the Act of 1890 should be re-enacted, or that the precise provisions of these statutes should again be made law. The system of education embodied in the Acts of 1890 no doubt commends itself to, and adequately supplies, the wants of the great majority of the inhabitants of the province. All legitimate grounds of complaint would be removed if that system were supplemented by provisions which would remove the grievance upon which the appeal is founded, and were modified so far as might be necessary to give effect to these provisions.

Her Majesty will happily advise the Privy Council on the questions submitted, and the answers in the manner indicated by the views which they have expressed.

There will be no coats of this appeal. Now the law the learned judges refer to that is to guide the government of Canada in doing their remedial measure is this—any one who reads English can see from the words "may," in no way binds the government to act.

In any such provincial law as from time to time seems to the Governor General in Council requisite for the execution of the provisions of this section is not made, or in case any decision of the Governor General in Council on any appeal under this section is not duly executed by the proper provincial authority in that behalf, then, and in every such case, and as far only as the circumstances of each case require, the parliament of Canada may make remedial laws for the due execution of the provisions of this section, and of any decision of the Governor General in Council under this section.

From this clause it must be clear to every one who wants to see through the eye of justice that it is only when the interests of a majority are palpably outraged, that the Federal government is expected to interfere, and that they then "may" and not "shall" do so.

Now, even if the Privy Council's language was mandatory, which it is not, as it is simply advisory, at first they only suggest supplementing the Manitoba act of 1890, why in the name of all that is fair, have the government not passed a supplementary measure instead of a complete school act from beginning to end? But this is not all. As establishing separate schools for the minority of Manitoba will leave discretionary power in the hands of the government, as to the composition of these schools in point of territory and support to be enforced, and text books to be adopted, why in the name of all that is right, were not the general interests of the people better protected, by Mr. Daly, the man of all others, when he had the power in his hands to better protect them? Why did he place the minimum of support at five with ten of a school population, when he could just as well have fixed it at 20 or 25 and limit those schools to the cities able to support them and the territory exclusively or nearly exclusively Roman Catholic? Again we ask, when the government gave the power to prescribe the text books why did he not limit the choice to those that are non-sectarian, such as those of the public schools of Manitoba, barring perhaps the histories, so that Protestant children living in Catholic communities who might be compelled to do so, could use them? The government could have made these separate schools even more limited to Catholic communities, uniform in all respects, barring the opening and closing exercises, to the public schools standard and every day work, and still be within the advice of the Privy Council, which would render them infinitely more acceptable to the non-Catholic population, and object to none. Again we ask why did not Mr. Daly see that the bill was drafted on the lines set out above, when he saw, as he says he saw, separate schools were necessary to carry out the finding of the Privy Council?

ECONOMY.

Mr. Roblin has very properly opened fire on the extravagance of the Greenway government in these resolutions:

Mr. Roblin moved, seconded by Mr. M. Fadden—That the financial position of the province demands an immediate action in public expenditure. That without detriment to the public service the cost of civil government legislation may be considerably reduced.

That neither the condition of the revenue nor the weight of duties performed by the provincial ministers and the Speaker warrants the payment of as much as \$2,000 a year to each minister, and \$1,000 a year to the Speaker, and these salaries ought to be materially reduced.

He is supported by the Nor-Wester as follows: Roblin's motion concisely covers the ground. The financial conditions of the Province demand an immediate reduction. The public service would not suffer through that reduction. And the condition of the revenue does not warrant such an expenditure as is now given to the Provincial Ministers and the Speaker besides their seasonal indemnity, and Mr. Greenway opposed that reduction.

Now, every word of this is correct, but if it is economy the Nor-Wester is after, why does it stop here? If Sifton's services are, for instance, not worth \$3,600 a year, how can our confere figure out that Daly gives value for \$8,000 a year? That's a pointed and fair question. If again the deputies at \$1,000 to \$2,000 a year at Winnipeg are expensive, what of the Ottawa deputies who get from \$3,200 to \$7,000 a year, on an average more than the ministers at Winnipeg? The Nor-Wester thinks there is a vast difference between Mr. Mowat and Mr. Greenway and therefore an excuse for the difference in salaries. Will it apply the same comparison to Daly and Sifton?

Again the Nor-Wester says that Mr. Ashdown's business exceeds in volume that of the local government, and if he were at the head of affairs he would prune the salaries and reduce them to a business basis. Very good. If he had the management of things we venture to say he would not have, as Sir Mackenzie Bowell has, over twenty clerks in the post office at Toronto doing nothing but handling mail matter, drawing over \$1,600 a year apiece when he could pick up better men on any of the streets of that city at from \$600 to \$700 a year. Neither do we think he would have three men in the customs and excise here, drawing nearly \$3,000 a year, when one good many at less than half the money could do all the work. There is no disputing the fact that the taxpayers of Canada are fleeced right and left by the salaries of civil government, but in criticizing we should be honest—we should not hold one government guilty for grosser extravagances than those of another which we loudly condemn. It would be infinitely better if the governments of Canada, instead of hiring employees on the log rolling system—for what they or their relatives did for the party in power—were to place all engagements in the hands of a non-partisan board placed above partisanship who would hire all for efficiency, and on the basis of true economy. The electors of Canada should make this matter a prominent plank in their platform.

The editor has been asked in connection with the school question why he does not endorse Mr. Daly when he supported some of the Opposition candidates in the late provincial elections. The answer is a simple one. We do not want to see a second school system forced on this province that is scarcely able to support one, and all for the purpose of pleasing the priests and bishops of the province of Quebec. Mr. Daly has endorsed the first act introduced and is therefore responsible for whatever measure, if any, becomes law, while in the local elections the candidates we supported were as fast friends of one provincial system as every member of the local government was. The Mail is nothing, if not always consistent.

PRINCIPAL RANT'S CONDEMN REMEDIAL BILL.

Kingston, Ont., March 22.—The following expressions are taken from Principal Grant's views on the remedial bill made public to-day. What is not given is of like tone:

The proposed remedial bill in my opinion is well adapted to irritate every one without doing a particle of good. It combines the prospect of a long continued Donnybrook between the province and Dominion, with a banished feast for the Manitoba Roman Catholic minority. There must be dozens of men in parliament, who, after a little reflection, will see how it is sure to work. The bill puts all the powers of the provincial government into the hands of a board of education, which is responsible to no one. To entrust such powers to nine gentlemen of whom nothing is required but that they shall be nominally Roman Catholics, is so contrary to the whole spirit of our constitution that one is tempted to think that the measure must have been drawn up by the ignorant Father Lacouture.

When, however, we look a little deeper, these extravagant powers are seen to be a pure delusion. The machinery looks wonderfully complete. It is spread out over forty pages of type but there is not a pound of steam to run it. Not a cent is provided even to enable the board to hire a room to meet in or to pay its necessary expenses.

The executive officer of the board is the superintendent, and he must have a good salary. He has all the work to do, and a difficult country to travel over, without his initiative nothing can be done. But his salary and the salaries of the local inspectors and the expenses of normal school and other higher training as well as more than half the salaries of the teachers are all to be paid out of a fund to be voted by the legislature of Manitoba.

It sounds like a huge joke. Of course Manitoba will not vote one dollar, and the salaries of the schools is to be determined by inspectors appointed by the lieutenant-governor-in-council, and every school is to be deemed efficient

until an inspector reports it inefficient. However, let us suppose that the board does meet in the street or elsewhere, and finds a superintendent who will work for love and put his shoulder to the wheel to set the machinery in operation. He organizes a few school districts and gets trustees appointed. There is all on the municipal council to levy separate school taxes; the municipality obeys. What then? Section 92 of the British North America Act, empowering the exclusive powers of provincial legislature, sub-section 2 is as follows: Direct taxation within the province in order to the raising of the revenue for provincial purposes. This surely deprives the Dominion government of the power to authorize the collection of such taxation.

The bill proposes that Roman Catholics, as well as the support of sectarian schools, are to be exempt from taxation of public schools. The British North America Act gives no power to the Dominion government to make such exemptions. If it does, why not also exempt the Mononites, who came to Manitoba under promise of the most favored race treatment, and the Anglicans who had more schools in 1870 than the Roman Catholics, and people who have no children, and corporations.

"Then the province would have very two people left to tax. Of necessity the province must proceed against any man who refused to pay a provincial tax. What a veritable lucullus banquet to the lawyers is suggested by all this litigation."

Again if the trustees of a school district require a loan for the purpose of building or any other purpose, and the lieutenant-governor-in-council declines to sanction the loan, His excellency the governor-general-in-council is to have the power.

Can the British North America act by any stretch of meaning be made to cover this transference of power. Besides, what means are provided for informing his excellency's advisers as to whether there is sufficient security for such loans. "It is unnecessary to go on criticizing. The bill means friction at every point. The government would do a brave thing if it called its followers together and announced its decision to begin again on the basis of accepting the proposals of Manitoba. "Should its supporters from Quebec rebel, what could they do? Simply put Mr. Laurier in power to let him do the very thing which seems to them outrageous. Surely at this critical epoch in the life of our nation and empire, Canada might ease convulsions herself over a two penny half-penny matter which three or four sensible men could easily settle, so as to satisfy every one except a few clerical and secularized bigots.

The most prompt, pleasant and perfect remedy for Cuts, Bruises, Burns, Scalds, Sprains, Rheumatism, Neuralgia, Toothache, Headache, Stomachache, Colic, Whooping Cough, Quins, Pain in the Chest and all Throat, Bronchitis and Lung Diseases. The healing agent is an expensive species of the Norway Pine and is combined in this medicine with Wild Cherry and other potent herbs to produce a make a true specific for all forms of disease originating from colds. Price 25c and 50c.

Weak and Nervous
Whenever the body has been weakened by disease, it should be built up by Hood's Sarsaparilla. Read this: "About two years ago I suffered with a very severe attack of inflammation of the bowels. When I began to recover I was in a very weak and nervous condition, and suffered intensely with neuralgia pains in my head, which caused loss of sleep, and having no appetite, I became very thin and weak. Fortunately a friend who had used Hood's Sarsaparilla with great benefit, kindly recommended me to try it. I did so and a perfect cure has been effected. I am now as well as I ever was, and I would not be without Hood's Sarsaparilla in my house for anything." Mrs. G. Kneel, 545 Manning Ave., Toronto, Ont.

Hood's Sarsaparilla
Is the Only
True Blood Purifier
Prominently in the public eye today.
Hood's Pills easy to buy, easy to take, easy in effect. 25c.

LOCAL NEWS.

Ad. Hughes, Souris, was in the city. Mr. E. Poplow, of Rapid City, was in town last week.

Mr. C.C. Haig, of Winnipeg, was in the city last week.

Mr. Geo. Aske is laid up with influenza and rheumatism.

Mrs. Seabury, of Douglas, has been brought to the hospital.

J. Wright of Routhwaite has returned home from the hospital.

Mrs. J.C. Harrison was unfortunate enough to sprain her ankle badly on Tuesday.

Mr. Anson Cartwright, Souris, has returned from Banff, greatly recovered in health.

Some of the politicians are praying that the coming court may strike the earth, to settle the school question.

A large lot of spring window shades, every color at Cliff's book store at less than cost to clear. Here are genuine bargains.

Dean Grisdale preached both services in St. Matthew's on Sunday last. While here he paid an official visit to the Oldfellows.

Mr. N. R. Pringle a relative of Mr. C. A. Smith, who has been in the city for some time left for his home in England last Saturday.

The C. P. R. has changed the service on the Glenora and Deloraine branches from three to two trains per week, and now for complaints.

J. J. Smith, of the Brandon steel firm has sold his celebrated prize winning cycle station M-Beth to Golden and Smith, of Rapid City.

The markets are practically unchanged from last week. The best wheat brings 50 cents and about 2,000 bushels a day are coming in.

An amendment to the school law was passed at Winnipeg recently fixing the teaching hours at 9:30 to 12 and 1:30 to 4. At other hours religious exercises may be observed.

Karl's Clover Root, the great blood purifier, its richness and effectiveness in curing all kinds of eruptions, Constipation, 25c, 50c, \$1.00. For safety N.J. Halpin.

A number of members of the Episcopal church, with the addition of W. V. Robinson and Mrs. McFarlane went to Routhwaite and Wawanesa this week to assist in a concert.

Mr. W. King, of Carleton Place, brought for his stock farm last week, from J. E. Smith, the young bull "Windsor the 5th," a 4 year old cow "Mina" and a 3 year old "Fair Maid of Bedford."

Messrs. McDonald and Calvert will be opening their immense clothing store in a day or two in Stronach's old stand. All in quest of stylish goods should pay them a visit.

Some of the eunuchs last week used to call Mr. W. Cleverley, the "Honorable Thomas Greenwood." The Mosconin man is certainly honorable, but there is not much of the rest of the name. Thomas or Greenwood, about his make up.

The most select stock of wedding stationery, correspondence cards, fine writings and envelopes, to match, ever brought to the city, is now in stock at Cliff's Bookstore. Call and see samples and get prices.

The Aleta Paisley concert on Tuesday evening in Lyon's Hall given by the Epworth League of the Methodist church was an unequalled success. Miss Paisley of Brandon well sustained her high reputation as an elocutionist in several selections.—Carberry Express.

There was one difference between John Gilpin and the late H. A. Massey so many of the Manitoba farmers say, Gilpin used to take from the rich and give to the poor, while Massey took from the poor farmers of Manitoba and gave about a million and a half to rich universities and churches.

HOUSE EXCHANGE.—Trotter & Trotter have on hand now two carloads of fine horses for sale, also a large stock of new double and single harnesses for sale. They have also opened out in the livery business and Mr. B. Trotter is expected back in about two weeks with another carload of drivers and working horses.

Miss Spiers, artist, is on a visit to Ontario.

County Court is on this week before the Hon. Judge Lumberland.

The operatic performance netted the handsome sum of \$100 for the hospital.

G. Hartley, of Melita, has bought out the butcher business of J. W. Barker, of Hartney.

H. Armstrong, of Douglas, has been sent to the hospital, with a badly jammed wrist.

Miss McKinnon, of the city teaching staff, goes to Winnipeg shortly on a month's visit.

A Mr. Devine has purchased the Sanderson farm and is arranging to complete the residence.

Hockey appears to be getting a trifle stale now, every one from \$10 to \$15 taking a hand in it all over the country.

The tea meeting at Kenney, Thursday evening was a very successful affair, the proceeds amounting to about \$40.

Mrs. J. B. Graham and son of Melita, have been visiting Mrs. Graham's daughter, Mrs. Shortford, the past few days.

The Indian band of the Baptist Church presented a fine painting, the work of Miss Sinclair, to the children's ward in the hospital.

There are three Winnipeg women in Grand Forks suing for divorce from their husbands. It is needless to say there are not that many there hunting for wash tubs.

Samuel McCurdy shipped a fine pair of Brown Leghorns to Mr. Thos. Greenwood, of Douglas on Monday. Carberry poultry is becoming famous.—Carberry Express.

E. Mallock, of Trebank, referred to in last week's paper as having a badly hurt arm is at the hospital. It is thought that amputation is on time thought certain may not be necessary.

Mr. Daly, on his return to Ottawa from the Immigration Convention said he heard scarcely a word about the school question while here. If he comes back for reelection he may hear more about it.

J. Kerr, Alexander, Rev. J. Stoddard, Bradwardine, Rev. J. Kimberly, Routhwaite, Rev. A. J. Purts, Douglas, and Mr. C. W. Milestone, of the C. P. R. were in the city last week.

The proprietors of the Rapid City papers have wisely decided to amalgamate, and the publication will now be managed by Mr. Perry who will doubtless give our northern town a better paper than it ever had before.

Benedit the youth who stole the horse from J. Young, of Routhwaite, has been sent up for trial. As was mentioned at Laurier, heading for the States as fast as he could go out not fast enough to escape detective Boyd.

The estate of the late Mr. Francis, of Headingley netted \$2,877, when it was sold by the assignee, and every dollar of this was consumed testing a chattel mortgage and the creditors got nothing. And yet Manitoba laws are held up as the epitome of perfection.

Mr. Allan Young, of Graveland, was in the city this week, and so also was Constable R. Dugan, of Daly. Municipal police. Mr. Dugan says that though his horse were stolen since he was appointed constable, it takes not a constable but a "thief to catch a thief."

"Jimmy" Herd arrived from Portage la Prairie on Monday and expects to remain the balance of the winter in Carberry. If his services can be secured for the hockey club he will make a valuable addition. Carberry Express.

Our Brandon poultry men Garville and Chambers, J.C. Harrison, E. H. White, Rolston, Cummings, Muttter, Brislin and McLean, are at the Winnipeg poultry show this week, and expect to be loaded on their return with prize money.

Our Convention delegates, Aids Halpin and Reesor, and Messrs. J.B. Whitehead, A.C. Fraser, G.R. Colwell and W.A. Macdonald have returned from Winnipeg. They report a lot of substantial work done, and hope for good results from the proceedings commenced.

At the annual meeting of the Brandon Turi Club held Tuesday evening week, the following officers were elected for the ensuing year: Hon. president, Judge Walker; president, H. R. Cameron; vice-president, Dr. Torrance; secretary-treasurer, Wm. Ferguson; directors, J.S. Gibson, T.E. Kelly, J.D. McGregor, Thos. Lee, P. Payne and J.W. McKelvie. The race meeting will be held on May 25 and 26. Purse will amount to about \$3000. From enquiries already received by the secretary, the prospects are bright for well contested events.

Many of our citizens were horrified on Saturday to learn that Samuel Jones, a young man working for Mr. Nelles, a couple of miles north of the city had accidentally shot himself dead. Dr. Fleming was summoned, and only found the report too true. The young man was removing a pistol from a trunk, and by some accident it discharged, the bullet entering his brain. The man was alive when the doctor reached but past medical aid as his brains were oozing out through the wound, and he died in a short time after. We understand his relatives live in Haldimand County, Ont.

The Brandon lovers of fast skating had the pleasure of having their curiosity satisfied on Thursday night in mile and two mile races between J. McCulloch, champion of the world, and the Anderson Bros. of Melita. After McCulloch gave a few exhibitions which fairly captivated the crowd, the race was announced. The arrangement was that the brothers were to give one another at the end of each half mile and which they did with great expertise. The first brother led for a while, but on each closing half mile McCulloch got the lead and kept it to the end. The mile race was made in 3 minutes and 10 seconds and the two mile in 6 minutes and 28 seconds. The Anderson Bros. are undoubtedly good on the ice, perhaps the equals of any others in the country barring the champion, and this Mr. McCulloch was frank enough to fairly acknowledge.

Among the visitors in the city this week are Squire Snowden, Mrs. McLeod, Mrs. Fowler and Mrs. S. Smith, of Souris.

A picture that is really a novel of the photo graphic art has been received by Mr. Paterson from the money order department of the Dominion Express company. It consists of about seventeen hundred Chinese and Japanese infants all grouped together in a space about 10 x 12. It is on exhibition at the C. P. R. city ticket office and should be seen by every one.

As the second and third class pupils are this year studying the works of Hawthorne and Tennyson. Mr. J. D. Hunt has kindly offered two good medals to be competed for by the two classes, the competition to take the form of an examination. A set of questions were prepared by Mr. G. D. Willson, Principal of the Brandon Collegiate, on the life and works both poets, and the pupils wrote on these on Friday afternoon. The winners of the medals will be announced and the medals presented on Friday evening at the open meeting of the school Literary Society.—Carberry Express.

Becher Hall has ceased its connection with the Viben. Advise under discouraging circumstances a financial failure. We are sorry for Mr. Hall personally, but a reasonable consideration of fact on his part, years ago, would show no other result was possible. He was cutting his throat, and endeavoring to secure work that should prove profitable, he has done more to ruin the printing business in the west than all "clippers" combined. Last fall he undertook to cover this country with "clubbed" papers offering his own at the cost of the paper and even this scheme failed to hold him out. There is a legitimate price for everything—one that will yield a reasonable profit, and printing and publishing are no exception. The public expect to pay this so the publisher who goes below this strikes his brethren of the craft below the belt, and gets worsted himself in the contest.

City Council.

The council met in the council chamber, city hall, Monday, March, the 2nd. Present Aids Fleming, Kelly, Sutherland, Colwell, Christie, Reesor, and McElvrie. On motion Aid Reesor was elected chairman in the absence of the Mayor.

Minutes of previous meeting were read and adopted.

COMMUNICATIONS.

From H.E. Henderson, City Solicitor, re the claim of W. A. Macdonald, solicitor for T. A. Kronner, that the plaintiff has refused to accept the offer of \$200 made conditionally on his delaying proceedings and pending investigation. He has given us until Monday before entering a defence.—Order of Motions.

From A. Vase notifying the council of his appointment as agent for the Polarite Filter Co. for the province of Manitoba, also enclosing table illustrating the increased purification produced by the filtration of water through Polarite as compared with the ordinary sand filtration.

HEALTH AND RELIEF.

Bills were received from several merchants for goods several parties now on the city's hands for relief. Some of the articles detailed were figs, oranges, biscuits, canned goods etc. Considerable discussion took place regarding this matter, when Aid Colwell made a resolution embodying the necessary requirements they should receive from the council.

INQUIRIES.

Aid Fleming why is it that the mooring bird whistle at electric light station only blows after 12 o'clock. Aid Sutherland replied that as he was on the committee dealing with such matters he would look into the same.

Aid Kelly asking if the sewerage had signed the contract for city sewerage. Treasurer replied that he had not as yet as he had not called to do so.

Aid Colwell asking Aid Fleming if he knew of the resolution in regard to the H. B. R. R. before it was type written.—Aid Fleming declined to reply to the same as it was out of order.

Aid Fleming asking if the delegates who had attended the Immigration Convention at Winnipeg had reported to the council.—Aid Colwell replied that it would come in due course.

MOTIONS.

Coldwell—Christie—That the letter of the City Solicitor re the 18th street bridge action be referred to Aids Sutherland, Reesor and Fleming and they be instructed to take the opinion of the City Solicitor at once upon the claim of Mr. Kronner and his action against the city and act upon the written advice the City Solicitor as to the claim against the city and if the City Solicitor so advise, then the City Treasurer be instructed to pay.—Carried.

Aid Kelly—Coldwell—That it is hereby resolved that the only relief after this date that will be paid for by the council will be meat, flour, oatmeal and wood and that, after only being reported on by the chief of police by his certificate as to necessity of it, and a copy of this resolution be sent to the chairman of Health and Relief.—Carried.

Provincial and Territorial.

Glenboro is going to have a new Presbyterian church to seat 300.

A very unfortunate accident occurred in Deloraine on Saturday last at the wood sawing machine of Messrs. Oddie and Hawthorne. Ernie Hawthorne, a boy of 12 years, attempted to step on the horse power while it was in motion. He slipped and his right foot got caught, the ankle being severely twisted and a bone broken.

Reeve Dodds states that if a tax sale is held in Arthur it will be a success, since the money is in sight to buy it, the land. Parties owing the council taxes charged against their land re-

vious to 21st December 1893 should make an effort to pay before March the 1st, as 10 per cent will be added after that date, and the land listed for sale.

Reeve Dodds of Arthur, is receiving great encouragement from several of the Reeve and Council in reply to his letter in regard to his proposed adjustment of the old seed grain debenture indebtedness with the Provincial government. Many of the council have appointed delegates to meet the Reeve of Arthur during the Immigration Convention 27 and 28 of February, and co-ordinate with him in the settlement. Heavy losses have been reported by all the Reeves. Those municipalities which have paid their loans, admit as having to pay on the ratepayers who received seed and paid for it, also on those who never had any seed loaned them to make good the loss, and now have on their hands a lot of bad, and doubtful notes. A parental government will be able to relieve tension, while the matter is fully explained to them.

W. T. Waggoner and R. A. B. Williams will not continue operating the Hartney farm, another year, but are getting ready to take possession of E. E. Evans' ranch across the river in the spring. Mr. Evans, we understand, goes to Winnipeg to live.

Stanton Chief will be used in the stand this coming season, and will likely travel his old route as Mr. Oudshoorn is receiving many letters of enquiry from parties living in the districts through which he has previously travelled. Stanton Chief has proved himself first class both on the track and as a sire and is one of the few things still left to Hartney, which we have pointed out with pride. He is likely to be a good father as Harry has had a good offer for him from some eastern people.—Hartney Star.

A short time ago an Indian lost a fine new fur coat on the trail between here and Deloraine. It was thought some parties who passed shortly after had picked up the coat. Now it turns out that a young Indian stole the coat and sold it at Souris and is now enjoying life on the proceeds of the sale.

THE BONSPIEL.

The Brandon bonspiel opened on Monday of last week in the ending rink. The names of those present were given in last week's mail, as was probably noticed none of the Winnipeg rinks were present. This was accounted for as Brandon has for the past number of years sent three rinks annually to the Winnipeg bonspiel.

Brandon has thanks to the generosity of its citizens, contributed some very fine and valuable prizes to be competed for. The weather being very warm the ice was rather soft for the first two or three days, notwithstanding the bonspiel was a roaring success.

The Grand Challenge was won by Philip, 15, Brigham being a close second with E. Philip's men take the four gold medals contributed by McNeil, of Anthracite, through Mr. John Hanbury, and R. Brigham's men the four silver medals, valued at \$50, contributed by Stronach & Wylie Bros.

The Walkerville was won by Brower 17, and Munroe second with 15.

The contest for the Nation trophy is to come off tonight (Thursday) between Fortune and Brower. As each of these men have good rinks the contest will be very exciting.

NORTHWEST ORANGEMEN.

At the recent session of the Territorial Grand Orange lodge, held at Medicine Hat, the action of condemning the action of Sir Mackenzie Bowden in resigning himself and his government to remedial legislation, and endorsing the action of N. Clarke Wallace, were unanimously passed. The following officers for 1896 were elected: R.W. grand master, J. A. Ames, grand vice master, J. H. M. Deputy grand master, J. E. McWilliam, John J. R. W. Jr. deputy grand master, B. Barber, Wolsley; R. W. grand chaplain, Rev. E. S. Barker, Medicine Hat; R. W. grand secretary, S. Gray, Regina; R. W. grand treasurer, J. D. Thompson, Brandon; R. W. grand director, Tupper Vance, R. W. grand drill, Dr. G. E. Cooke, Moose Jaw; R. W. grand deputy secretary, A. D. Ferguson, Wolsley. The provincial grand Orange lodge meets next year in Regina, on February 18, 1896.

The Vanderbilt Family.

Cornelius and Willie K. Vanderbilt are opposites. I never heard anyone speak of the elder as Cornie, Cornelie, or Nele, while everyone speaks invariably of the younger as Willie K.

His tall, spare, ascetic in appearance, with little make-believe whiskers by his ears, an eye of kindly keenness, good teeth, manners pleasant but reserved. He might be taken for a fair, never speculates, keeps no fast horses, has no yacht, is much interested in church matters, gives with discreet liberality and attends to the business of his office with the intelligent interest and methodical regularity of a man of affairs. Willie K. is a born speculator, takes big risks, and of late years very successfully. He has long been a yachtsman. I doubt if any man could teach him how to play cards. He knows little about horses, but is now investing in them. He stands about the same height as his brother, but with a stockier build. He looks younger, jollier, and in spite of his divorce, happier. Both men are particularly fond of their children and anxious for their welfare.

The present generation of Vanderbilts uphold the name worthily. Cornelius is regarded as a first-class man of business. Willie K. is a bon vivant, with serious interludes. Frederick is as yet a small inventor, without much care for the pleasures of society, and George considers himself favorably as a fair specimen of the new class of men of business. Their good mother yet lives, and her influence at all times, like that of most mothers, is for the best good of the greatest number.—The Montreal.

LITTLE THINGS COUNT!

Look out for the quarters, and the dollars will look out for themselves. It is robbery to take a whole dollar without giving value for it, but many grocers seem to think it is all right to keep a quarter of it untaken. They'll charge you a dollar for some article you'd pay 75 cents for here. That isn't robbery; it's merely the kind "business." We guarantee everything we sell. We don't cut the price at the expense of the quality, but we do cut the prices quite frequently.

For the Lenten Season

.....WE HAVE.....
